This is decidedly the worst Town we have seen yet in the district.

I have marked only those Swamps which we could see on the lines and occasionally angling through the section. but have reason to believe that the Town is pretty much all swamp. — What little good land there is in it is rendered useless by the impossibility of getting to it through impassable Swamps. — This will in a measure, account for the bad closings

Pursuant to a Contract with and instructions from William Lytle late Surveyor General of the United States. bearing date the 26th day of November 1830. — I have surveyed and subdivided into Sec. Township No 35 North of Range No 13 East of the 2nd Mer. in the State of Indiana. And I do hereby Certify that the foregoing are the true and original Field notes of the said survey and subdivisions executed as aforesaid

Certified this 17th day of August 1831

E. W. Lytle.

Dep. Surveyor.

I Certify that the foregoing transcript of the Field Notes of Township No 35 North of Range No 13 East of the 2nd Mer. in the State of Indiana, has been compared with the original notes in this Office, and found to be Correct.
